16 Mohamed Sultan Road, #03-02
Singapore, 238965

PASR Technologies has for the past six years provided AsiaXPAT with professional managed services supporting our technology platforms that operate our growing business based on Hong Kong.

AsiaXPAT's web Portal supports almost one million visits per month, and is hosted on multiple web servers, database servers and includes, DNS, email and FTP services.

Throughout this period, PASR has consistently met with the changing demands of our Portal – maintaining a high level of uptime and availability, assisting with selection and acquisition of cost-effective platform hardware and software and responding in a timely manner when inevitable disruptions occur.

PASR's ongoing commitment to our business IT Infrastructure has enabled AsiaXPAT to focus on building our business to greater levels. We are pleased to recommend their services.

Sincerely,

John Luciw
